

**FENCE  
ARMOR®**

**The best defence for your fence.**

## FEATURES & BENEFITS

- Made in North America from 100% recyclable American Galvanized Steel
- High-grade powder coating is durable for 20 years or more
- Our optional fasteners are made from stainless steel for a corrosion-free, solid installation with additional color matching in black and white
- When Fence Armor is properly positioned at the center of the trimmer line it can prevent moisture build-up
- Fence Armor's patented two-piece design allows for post expansion and contraction due to temperature and humidity levels
- The unique two-piece design makes Fence Armor neighbor-friendly allowing for full or half protection
- Fence Armor is the best protection available for privacy fences, offering a shallow depth design for lower rail applications
- Our patented, engineered corner radius increases Fence Armor's structural integrity while decreasing wear and tear on the trimmer filament
- Fence Armor is stackable to any height
- Designed to leave no part of the post exposed, Fence Armor is ideal for fitting rectangular posts
- Ornamental Fence Armor is an easy-to-install, click-lock application with no fasteners required
- With over 113 sku's to choose from, Fence Armor comes in any size, shape and color
- Fence Armor offers custom colors and sizes to suit any yard requirement
- Protects fences, mailbox posts, decks, signage posts, play structure posts
- Rural Fence Armors protect top and bottom of posts against damage and horse cribbing
- Fence Armor can be removed while staining or painting, and re-installed for clean look
